Electos 4.5

Better and more powerful than ever!

Roel Fermont

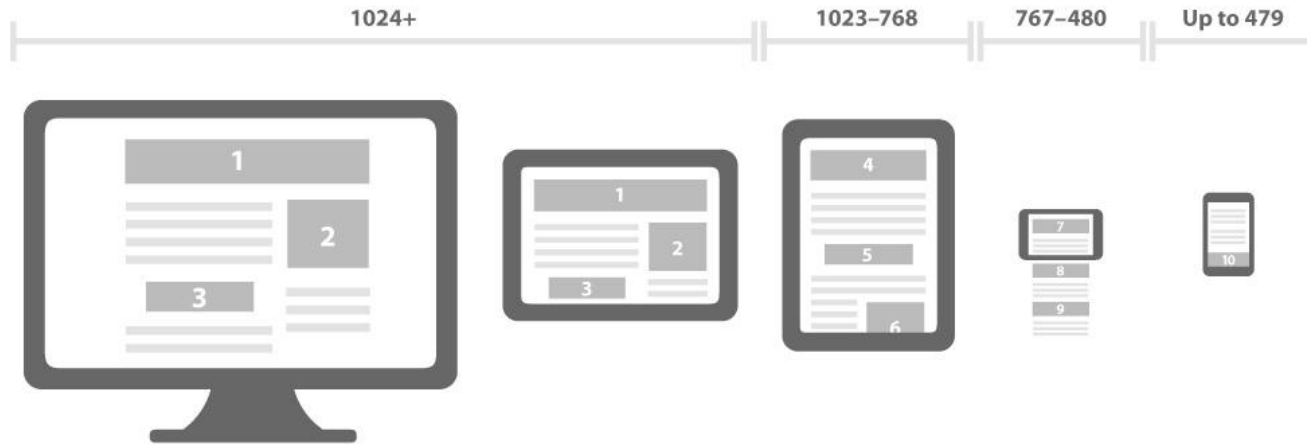

Data Access Europe

Evolution of the web

Evolution of the web

- The web is flexible so we need to be flexible
- CSS3 & HTML5

Evolution of the web

Different experiences in different browsers is okay.

"Our goal should not just be to get it working in every browser; our goal should be to get it working in every browser with a minimal amount of code, allowing future website maintenance to run smoothly."

Electos 4.5

- Many improvements in usability
- New features
- Bug fixes
- Brand new MyWebsite

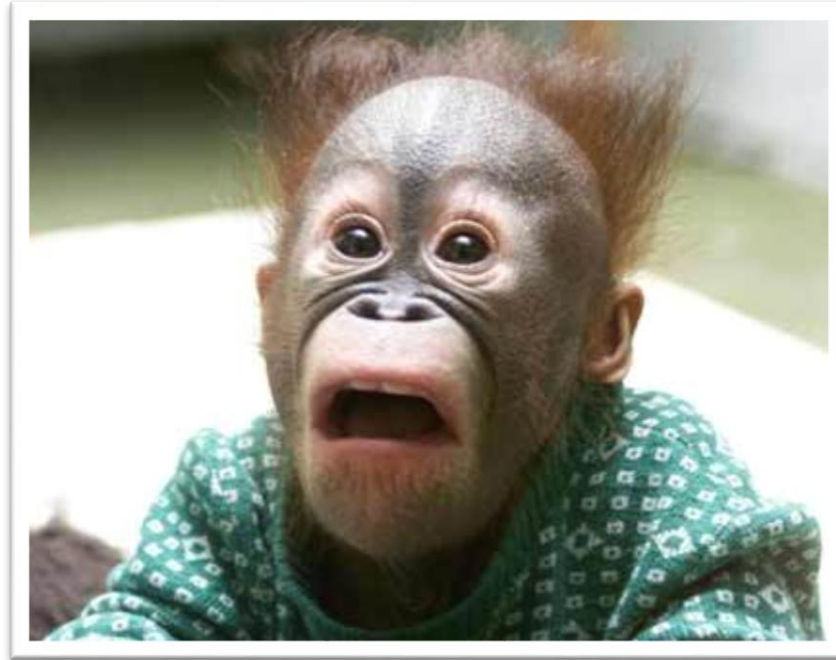

Electos

Content Management System

What did we change/add?

- Public URL for files
- Auto update for Sitemap.xml and robots.txt

Modernized interface

The screenshot displays the ELECTOS content management system interface. The top header includes the system name 'ELECTOS' and the subtitle 'content management system'. On the right, there is a user profile 'admin' and links for 'Log out', 'Help', and 'Website preview'.

The left sidebar contains a 'Website' section with a list of items: Home, News, Photo Book, Shop, About, and FooterMenu. Below this, there are expandable sections for 'Website', 'Files', and 'Design'.

The main content area features a 'Website' section with a table listing website items. The table has columns for Name, Position, Status, Modified By, and Modified On. The data is as follows:

Name	Position	Status	Modified By	Modified On
Home	1	Enabled	admin	09/08/2010
Pro...	2	Enabled	admin	04/04/2013
News	3	Enabled	admin	07/08/2010
Pho...	4	Enabled	admin	09/09/2010
Shop	5	Enabled	admin	09/14/2010
Gue...	6	Enabled	admin	04/29/2011
About	7	Enabled	admin	04/29/2011
Foo...	8	Enabled	admin	07/20/2010
site...	9	Enabled	admin	01/03/2013

On the right side, there is a 'Permissions' panel. It shows 'Permissions assigned on - Website:' with 'Full control' assigned.

More or less information

- New status bar
- New icons to
- Column details (per user)
- Exclude website parameters

Public URLs for files

Previously

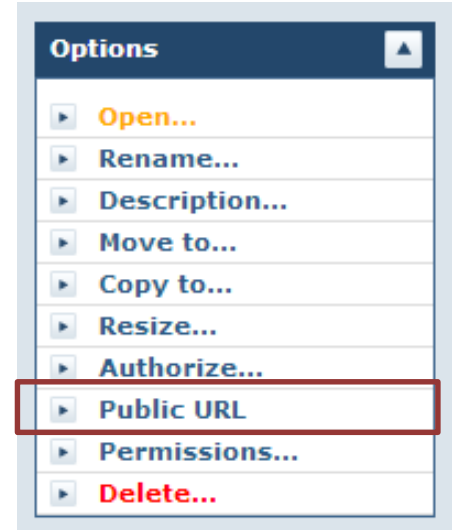

<http://site.com/Studio/Include/ElectosFileStreaming.asp?FileId=68>

New

<http://www.site.com/company-logo.png-f68>

Website/Travel-information-Aug-2011.pdf-f189

com/MyWebsiteNewWebsite/Travel-information-Aug-2011.pdf-f189" target="_blank">Download

Note: URL rewrite module needs to be installed and checked in settings.

Scan for unused items

- Detailed report shows:
 - Dead links to internal files, pages, folders

Import & Export

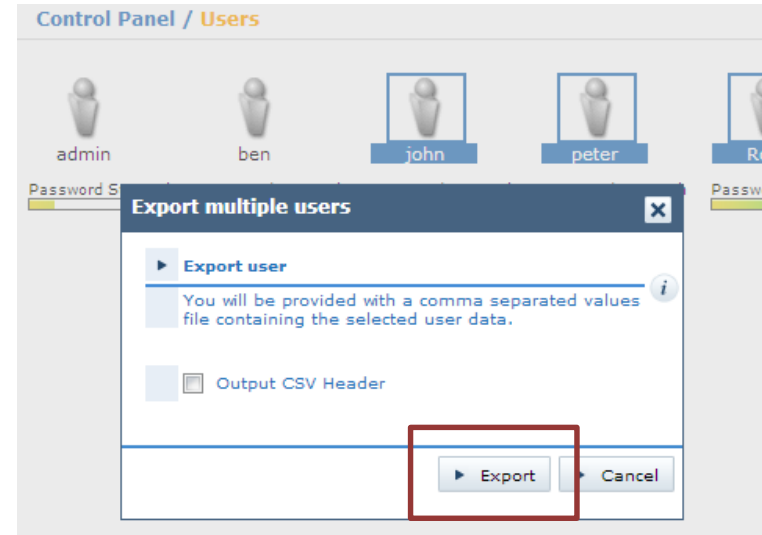

► Add Custom Parameter

► Exclude Parameter

► Import Custom Parameter

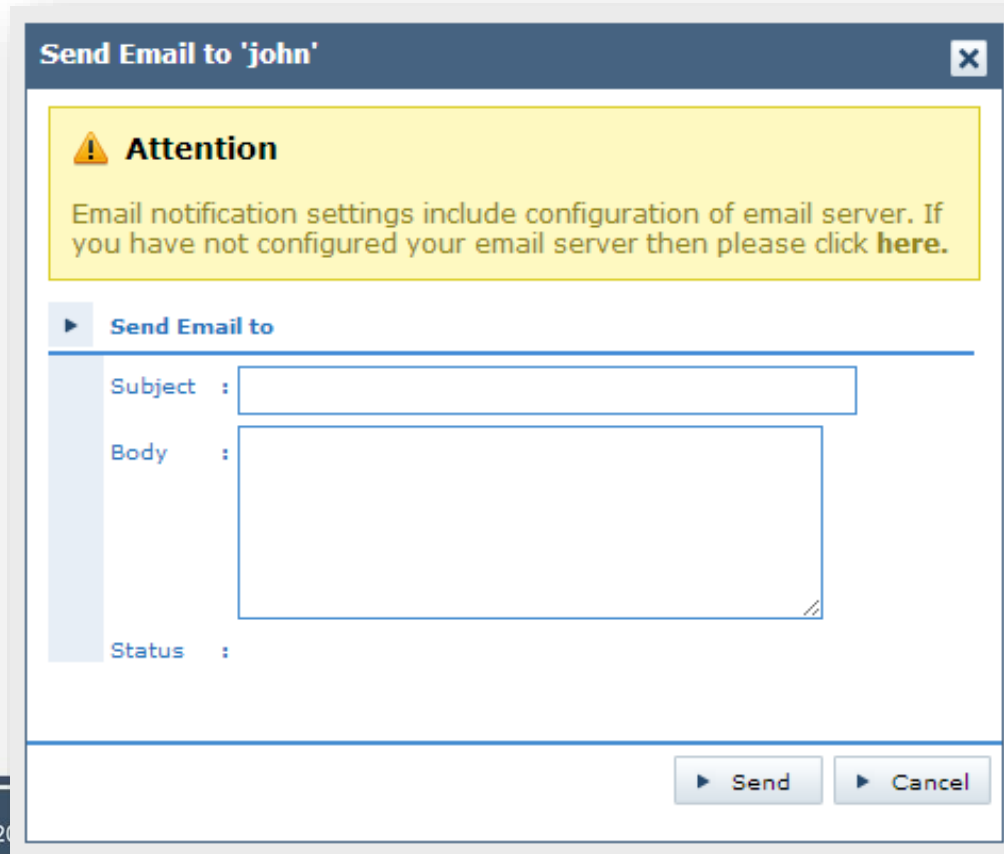

► Export Custom Parameter

- Custom website parameters
 - For large websites and multi-lingual websites
 - Pre-edit CSV file offline – then import into Electos
- Website users
 - Multiple user accounts
 - Transfer to other website

Send internal e-mails

Send e-mails to
active Studio users

The screenshot shows a dialog box titled "Send Email to 'john'". At the top, there is a yellow warning box with an exclamation mark icon and the text: "Attention Email notification settings include configuration of email server. If you have not configured your email server then please click [here](#)." Below this, there is a section titled "Send Email to" with a right-pointing triangle icon. This section contains three fields: "Subject" with a single-line text input, "Body" with a multi-line text area, and "Status" with a single-line text input. At the bottom right of the dialog, there are two buttons: "Send" and "Cancel".

Improved user security settings

- Blank or expired password
- Set amount of days password expires
- Set login delay
- Users last login date

Display change password warning	:	<input type="checkbox"/>	after :	<input type="text" value="0"/>	days
Schedule scan period	:	<input type="text" value="Never"/>			
Allowed number of unsuccessful login attempts before delaying login	:	<input type="text" value="10"/>			
Allowed number of unsuccessful login attempts before deactivating user	:	<input type="text" value="25"/>			

General improvements

- Multi- item page in Multi-item page
- Create link to an internal page
- Increased character length from 30 to 200 for filenames

Sharing an existing page
it's bad SEO practice.
Instead **create a link to
internal page**

General improvements

- Auto update Sitemap.xml and robots.txt
- Switch type from Document to Container and vice versa.

You can turn it off if you don't like it.

There is more...

- Electos 4.5
 - Contains many other improvements
- Electos 4.6
 - New text editor
 - Extend document structure item types
 - Categorized website parameters
 - Usability improvements and more...
